Randy Bautista

Cybersecurity GRC Analyst | Risk, Compliance & Control Documentation

Johnstown, PA | (862) 215-2914 | randybautista@yahoo.com | LinkedIn: randyebautista

PROFESSIONAL PROFILE

Cybersecurity professional and Army veteran focused on governance, risk, and compliance. Combines cybersecurity education with hands-on operational accountability, sensitive equipment control, process documentation, and SOP-driven discipline. Prepared to support risk assessments, control evidence, policy documentation, audit readiness, and security governance work across business and technical teams.

GRC POSITIONING

Control-minded cybersecurity candidate with military accountability roots.

NIST awareness | ISO 27001 awareness | Risk documentation | Compliance support

WHAT I BRING TO GRC TEAMS

Audit Readiness

Organized records, evidence gathering, documentation accuracy, and repeatable review habits.

Risk Mindset

Identifying gaps, tracking issues, following procedures, and reducing operational risk.

Control Discipline

Accountable property, sensitive resources, inventory control, and chain-of-custody thinking.

Security Foundation

Network security, incident response, vulnerability assessment, and threat mitigation.

RELEVANT EXPERIENCE

Company Supply Sergeant / S4 Clerk — Fort Bliss, TX

U.S. Army

- Managed sensitive equipment and government property accountability where accuracy, documentation, and security procedures were essential.
- Maintained records supporting command reviews, financial liability reporting, controlled property tracking, and supply discipline expectations.
- Supported supply operations, inventory control, equipment issue and turn-in, and operational readiness requirements.
- Applied security-minded procedures for handling resources, protecting sensitive information, reducing risk, and supporting reliable decisions.

Non-GRC civilian roles have been intentionally removed from this focused version.

CORE SKILLS

Risk Management | Compliance Support | Control Documentation | Audit Readiness | NIST Awareness | ISO 27001 Awareness | Policy & SOPs | Incident Response | Vulnerability Assessment | Threat Analysis | Network Security | SIEM Concepts | Records Accuracy | Sensitive Information | Stakeholder Communication

EDUCATION

B.S. Cybersecurity Management — In Progress

American Military University

Current studies focused on cybersecurity leadership, compliance, information security, network defense, incident response, and organizational risk.

A.S. Cybersecurity — Mar 2023 - Mar 2025

American Military University, Ranson, WV | GPA: 3.35

Foundation in security principles, risk mitigation, cryptography, network security, and threat analysis.

CREDENTIALS & TRAINING

Dean's List: Q4 2025, Q1 2026, Q2 2026.

Honor Societies: Golden Key Honor Society, SALUTE Veterans National Honor Society, National Society of Collegiate Scholars.
